PROJECT NOTES: Jazzy Stax Volume One is the best of 2022 for HA Ya-Ali. A compilation of releases across 1 album and 2 EP's. Including the April 28th released Grandson of Jazz album. "HA started producing this series in April, and by the end of July, Jazzy Stax Volume One emerged. Its original material he wrote, performed, and engineered. Except The System (Gott Chalk) remix, mixed by his son Amani Shaheed. Followed up by Greatest Game EP in July and Send Forth EP in August. In pieces all of this record is available now at DSP's worldwide, though the actual compilation won't drop till December. On Jazzy Stax Vol. 1 HA Ya-Ali dove into his keyboard more, laying string beds and incorporating woodwinds in his Westpark Village (Roseville), California home studio.
